 An unidentified AAA site in the Dong Hoi area reprted the shootdown of an F-8 at 0644z. The aircraft was reported down at Cua Tung (south of Dong Hoi). No reflections of pilot status.
 Note; probably a case of mis-identification of an F-8 for the A-7

due to their extreme visual similarity.

- An element of the 267th SAM Regiment; launched two missiles at four aircraft. One of the aircraft burst into flames and the pilot bailed out on the spot.

- An element of the 267th SAM site reported shooting down.two\_\_\_\_\_\_ aircraft. The pilot of one aircraft had already been rescued and a search party had been dispatched to attempt the capture of the second pilot.

SAM regiment reported the shootdown of an F-4. "...is the pilot /alive", "launched two missiles...noted one parachute". - DIA preliminary assessment; DIA concurs with the initial NSA correlation that SIGINT possibly relates to this case. The SIGINT indicates a plane was shot down and a chute was seen. It does not indicate if the crewmember was alive or captured. Wingmen of the 2044 crew stated that they observed the plane crash with the canopy closed, which is indicative of a non-ejection. This SIGINT contradicts U.S. eyewitness reports and may be bogus. However, it may represent new information for this case and should be incorporated in an all source position and brought to the attention of the Vietnamese in negotions regarding Refno 2044. ## TOP SECRET UMBRA

One Mig-21 reported a shootdown.

- Two F-4 aircraft reported shot down with "many aircrew captured" No direct reference to any particular aircraft or crew.
- Note; Nearly all of these reports concern probably either # 1848 (Harris & Wilkinson), # 1849 (Lodge), or # 1850 (Blackburn & .... Rudloff).
- DIA preliminary assessment; DIA concurs with the initial NSA correlation that this possibly corrlates to this case and offers Refno's 1849 and 1850 as possibly being related. The SFGINT. mentions shooting down 14 U.S. planes and capturing many pilots. This SIGINT definitely has some degree of hyperbole in it and it is possible that the only person captured alive was from Refno 1850. This SIGINT does not specifically refer to any one crew as being captured. DIA analysis indicates that this SIGINT should be brought to the attention of the Vietnamese for clarification. However, by itself it does not offer anything new to any of the cases listed.

- Chute sighted, capture of pilot poss.
- One unid aircraft shot down by SAMs. The SAM Regt dispatched teams to search for wreckage and possible survivors.
- DIA preliminary assessment; DIA concurs that the initial NSA correlation possibly relates to this case. The SIGINT indicates a plane was shot down and a parachute was seen and the possibility that a pilot was captured at Haiphong. That does not match the circumstances of loss for Refno 1920, the area is off by almost 120nm. There are no matches for the loss described in the SIGINT information. However, 1920 is the best possible candidate, if the SIGINT is true. There is a possibility that this SIGINT information is bogus. This SIGINT should be used to approach Vietnamese government regarding clarification of this incident.
