OPS

M/R: The Navy requested the release of one-time tapes and pads to various South American Countries to secure CNO to CNO communications. The DIR/CSEC after consultation with PROD in accordance with NSA Reg 90-8 and in spite of the fact that PROD reserved its position pending further study of the implications of the proposed action, recommended that the material be released. This recommendation is consistent with the USCSB policy towards South American nations and [redacted] approved by COMSEC 2-34/4 dated 7 Oct 1960.

[redacted] CSEC re-evaluated the matter and, considering that PROD had not established a sound case upon which to base disapproval, reaffirmed to OPS and the D/DIR the original CSEC position that the material should be released to meet a justified operational requirement. The matter was subsequently referred to the COMINT Committee

M/R: (Continued)  
which agreed unanimously that the [redacted]

[redacted]  
requests, the Executive Secretary of the USCSB is being furnished a copy of this correspondence. Coordinated with Lt Col Burn, OPS.

Mr. G. H. Fralley/CSEC-04/2129/22 Nov 60/dr

Added M/R: CSEC doesn't concur on the grounds that insufficient data is available to the DIR/NSA to form an opinion at this time; further, it appears to CSEC that the stimulation estimate of the SIGINT Community is at least tenuous if not exaggerated. NSA will probably have difficulty in supporting this decision if the Navy appeals the rejection.

Mr. P. E. Neff/DIR, CSEC/2303/22 Nov 60/dr
