Dear Bill:

I am reluctant to bother you but must get some further advice re my nephew's application. His absence in France complicates matters.

Just today there was returned to him, in care of me, the application for Federal employment and his personal history statement with an orange printed notice attached from the U.S. Civil Service Commission. Perhaps I erred in mailing it directly to the Commission. I would appreciate your advice as to what to do now. Of course I assume that there may be an opening for one with his particular training notwithstanding the fact that the position does not have an examination scheduled for same.

Thanks very much for your cooperation.

Regards to the family.

As ever, .

AH/ep

Dear Bill:

My nephew is about to file his Personal History Statement and his Application for Federal Employment. He has asked for advice re the first question on the latter blank which is, "name of examination or kind of position applied for".

Just what would you suggest as the answer in view of the fact that he of course would be interested in a position in the field of the mathematics of cryptography but would not want such a statement to exclude other possibilities in other mathematical and/or statistical fields if he did not qualify for a position in the former.

I would appreciate your advice re the above.

With personal regards to the family and yourself.

Sincerely,

AH/ep
