REMARKS			
<p><i>When you are through with this document, please return it to Mr. George Hurley, NSA-064. Good's work has much merit, and if it can be criticized, one must not forget it is the first work of its kind. There are many sins of omission - some of which could even have been avoided if Good had had the M.C. Part I test at hand - but this work can certainly serve as the basis for an expanded paper.</i></p>
