CROSS REFERENCE SHEET

MAIN SUBJECT:
Excess TG-30

CLASSIFICATION NUMBER:
Equipment- Excess Determining
Requirements of

~~TS-81~~

Date of Communication:

From: AS-85

Date of Basic Document: 22 Sep. 1948

BRIEF SUMMARY:

Maintenance Branch has on hand at this time 539 TG-30. The TG-30 was procured for issuance with the SIGNIN in those cases where polar signals were utilized in transmission. Of the 500 SIGNIN units procured, it is estimated that only 350 will be available for long time storage, the other 150 being utilized in training schools and/or cannibalized for spare parts. It is therefore requested that AS-85 be authorized to reduce the quantity of TG-30 held in stock.
